Dermatology &
Dermatologic
Surgery Society

Exhibitor Set-up
2pm - 4pm
Breakdown
8:30pm - 9:00pm

**Connecticut Dermatology and Dermatologic Surgery
Annual Educational Meeting and Expo**

Thursday, May 31, 2018 • 4:00 pm - 9:00 pm

The Aqua Turf • 556 Mulberry Street • Plantsville, Connecticut

Education Mission Statement

We are committed to advancing the highest standards of skin care through continuing education activities. The Connecticut Dermatology and Dermatologic Surgery Society Semi-annual Scientific Education Programs are dedicated to improving and protecting our patient's skin health by presenting advances in the diagnosis and treatment of skin disease.

Our target audience includes dermatologists and their staff, including office managers and medical assistants. Activities range from didactic lectures to participatory activities, and whenever possible are approved for CME credit. We expect that our audience will incorporate best practices, as presented, into their daily practice. Specific competency, performance and patient outcome goals that will result from the program will be proposed by the presenters and evaluated by the participants.

by the Executive Committee)

EXHIBITORS

Platinum

AbbVie US, LLC

Celgene Corp.

Galderma

Genentech

Novartis Pharmaceuticals

Pfizer

Gold

Amgen

Biofrontera, Inc.

Cobalt Medical Supply, Inc

Lilly USA, LLC

Regeneron/Sanofi Genzyme

Silver

Aclaris Therapeutics, Inc.

Beiersdorf, Inc.

Castle Biosciences, Inc.

Community Health Network of CT, Inc.

CT Healthlink

CT Pharmacy Direct

Janssen

Johnson & Johnson (Aveeno & Neutrogena)

Mayne Pharma

Mylan, Inc.

Ortho-Dermatologics

Prescriber's Choice

Promius Pharma

SkinPac

Sun Pharma

3:30 **Registration**

4:00 **Wine and Cheese with Vendors**

4:30 **Combined Rheumatology-Dermatology Clinic for Managing Connective Tissue Disease**

– Jun Lu, M.D.

Objectives: 1. Identify challenges for managing complex connective tissue disease 2. Identify impact of combined rheumatology-dermatology clinic on patient management and satisfaction. 3. Case based discussion on challenging cases of lupus, scleroderma, sjogren's and dermatomyositis.

5:00 **Clinical Trial Update**

– Mona Shahriari, M.D.

Objectives: 1. Describe ground breaking scientific developments in dermatologic research. 2. Evaluate and apply information from recent investigations to clinical practice.

5:30 **Dermatology and Global Health**

– Aisha Sethi, M.D.

Objectives: 1. Define role of dermatology in the Global health arena 2. Outline how factors like immigration, trade, war affect the practice of dermatology. 3. Emerging infectious diseases to watch out for in dermatology here in the US.

6:00 **Dinner with Vendors - Business Meeting
Truth-in-advertising/scope**

– Lisa Percy Albany, J.D., AAD Director of State Policy for the American Academy of Dermatology Association

6:30 **Dessert & Coffee**

Chocolate Bar sponsored by CT Healthlink

6:45 **Daily Dilemmas in Dermatology**

– Peter Heald, M.D.

Objectives: In the daily practice of dermatology we often embrace (sometimes subconsciously) dilemmas that directly impact our management of the patient at hand. The following dilemmas will be explored to allow practitioners to improve their management of dermatology patients.

1. To manage disorders of adaptive immunity the strategy of TKO will be compared to PRN with guidelines to help in decision making. 2. With isotretinoin do you aim for 150 or 220? 3. Is your office BBE? 4. Should every methotrexate patient be on folic acid? 5. Is it high time for derms to prescribe medical marijuana.

7:30 **Lessons Learned from the Other Side (of the Exam Table including Aesthetics)**

– Richard Antaya, M.D.

Objectives: 1. Participant should be able to identify psychosocial implications of severe skin disease on patients and families.

2. Have better insight into the effects of chronic disease on children and families. 3. Identify strategies for a meaningful and fulfilling practice.

8:15 **Topical Chemotherapy wraps with 5-Fluorouracil**

– Henry Heaton, M.D.

Objectives: The participants should be able to identify patients who would benefit from chemotherapy wraps, implement chemotherapy wraps using fluorouracil, and identify the signs and symptoms of local and systemic fluorouracil toxicity.

Residents' Presentation - Cosmetic Fillers and Aesthetic Treatments

– Christopher Stamey, M.D.

– Sandeep Saluja, M.D.

9:00 **Certificates and Door Prizes**

This activity has been planned and implemented in accordance with the Essentials and Standards of the Connecticut State Medical Society through the joint sponsorship of CSEP and The Connecticut Dermatology & Dermatologic Surgery Society. CSEP is accredited by the CSMS to provide continuing medical education for physicians. CSEP designates this educational activity for a maximum of 3.75 AMA PRA Category I Credit(s)[™] toward the AMA Physicians Recognition Award. Each physician should claim only those hours of credit that he/she spent in the activity.

Please note: No certificates will be handed out without completing and handing in the CME Evaluation Form suggested topics and speakers and outcome measurement questionnaire at the end of the program.

Thank you!

SPEAKERS

LISA PERCY ALBANY, J.D.

Lisa Albany is the Director of State Policy for the American Academy of Dermatology Association. In this role, she develops and directs a comprehensive program for addressing state legislative and regulatory activities affecting dermatology nationwide. Working with state and national medical specialties, the American Medical Association, state medical societies, and patient interest groups, Ms. Albany has spent more than a decade building successful coalitions to improve patient safety.

Prior to her employment with the dermatologists, Ms. Albany was employed by the American Society of Anesthesiologists where she served as Manager of State Legislative and Regulatory Issues.

Ms. Albany earned her Juris Doctor from Widener University School of Law and Bachelor of Arts from the University of Delaware.

RICHARD J. ANTAYA, M.D.

Dr. Antaya is Professor of Dermatology and Pediatrics and Director of Pediatric Dermatology at Yale University. He received his medical degree from Tufts University in 1989 and completed his pediatrics residency at Tripler Army Medical Center in Honolulu, Hawaii. He practiced general pediatrics for three years in the Army at Fort Polk, Louisiana and completed a dermatology residency at Duke University prior to joining the Yale faculty in 1998 as Director of

Pediatric Dermatology.

Dr. Antaya has lectured around the US and abroad and has written numerous articles and book chapters on various topics in pediatric dermatology. His clinical endeavors include a Pediatric Vascular Lesion Clinic, which provides diagnosis and treatment for vascular lesions. He is the founder and Director of the Yale Multi-disciplinary Vascular Anomalies Conference, a forum for patients with highly complex vascular disorders. He treats children with severe inflammatory skin disease, especially recalcitrant atopic dermatitis and psoriasis, cutaneous infections, severe acne, pigmentation abnormalities, nail disorders, and hair loss.

He participates in clinical trials regarding treatment of skin disease in children, including research in the treatment of atopic dermatitis, the etiology of genetic skin disorders and is currently evaluating a novel painless treatment for common warts.

Dr. Antaya is a fellow of the American Academy of Dermatology, American Academy of Pediatrics, Past President for Society of Pediatric Dermatology, and the co-founder and co-director of Camp Discovery, Connecticut, a summer camp for children with chronic skin disease, sponsored by the American Academy of Dermatology.

PETER HEALD, M.D.

Just being involved with dermatology for the past 40 years is the greatest achievement in my career. My practice has been a combination of referrals for complicated medical dermatology cases and for patients with cutaneous lymphomas. My major goal is to share the insights I have gained to practitioners to facilitate the more effective practice of dermatology and to impart the lessons I have learned to the two outstanding residency programs in Connecticut so that the process will continue.

JUN LU, M.D.

Dr. Jun Lu is Assistant Professor of Dermatology at University of Connecticut School of Medicine. Dr. Lu established a combined rheumatology-dermatology clinic at Uconn, specializing in diagnosis and management of complex connective tissue disease including lupus, scleroderma, sjogren syndrome and dermatomyositis. Dr. Lu is the director of teledermatology at Uconn which offers service to multiple primary care clinics throughout Connecticut. Dr. Lu also conducts research on teledermatology and connective tissue disease. Dr. Lu sees patients at Uconn Dermatology-Farmington.

AISHA SETHI, M.D.

Dr. Aisha Sethi is an Associate Professor of Dermatology at the Yale University School of Medicine, and Director of the Yale Dermatology Global Health Program. She was faculty in dermatology previously at the University of Chicago and Director of Outreach for the Center for Global Health at the University of Chicago from 2009-2017. After attending medical school in Pakistan, she completed her postdoctoral fellowship, internship, and residency in dermatology at Yale University, where she also was chief resident. Her interests in tropical medicine, immigrant minority and refugee populations, and global infectious diseases with dermatologic manifestations have led her to field work in Pakistan, Malawi, Jordan, the Hospital for Tropical Diseases in London, and Tanzania. She is especially interested in addressing global access to medical care, medical diplomacy programs, and improving medical training and dermatologic therapies in developing countries. In 2010, Dr. Sethi was chosen for the leadership program sponsored by the American Academy of Dermatology and was chosen by the Chicago Council of Global Affairs fellowship for Emerging Leaders in 2014. She has set up a dedicated dermatology elective exchange program with Kamuzu Central Hospital in Lilongwe, Malawi, for medical students and dermatology residents since 2007. Her albinism awareness work in Malawi has been featured by national media in the country several times and has been recognized and supported by the Mala-

wian government. In 2010, Dr. Sethi was awarded the Presidential Volunteer Service Award from the White House Council on Service and Civic Participation for her volunteer efforts.

MONA SHAHRIARI, M.D.

Dr. Shahriari is an assistant professor and associate director of the clinical trials unit at the University of Connecticut Department of Dermatology.

Dr. Shahriari earned her medical degree from the University of Connecticut. After spending a year at Baystate medical center completing her internship in internal medicine, she returned to the University of Connecticut to complete her residency in Dermatology. She is board certified by the American Board of Dermatology and a Fellow of the American Academy of Dermatology.

Dr. Shahriari's clinical and research interests include inflammatory skin conditions, pediatric dermatology, and the study of novel therapeutics for skin disease.

Outcome Measurements

Name:

1. Has this symposium changed the way you will care for patients? Yes No
2. Do you believe this symposium will have a positive effect on patient surgical or clinical outcomes?
 Yes No
3. Can you offer other speakers or talks that will provide information to improve clinical outcomes at the next meeting? Yes No
4. Has this program increased your medical knowledge?
 Yes No

ACGME COMPETENCIES

This course is designed to meet one or more of the following Accreditation Council of Graduate Medical Education competencies:

- Patient care
- Medical knowledge
- Practice-based learning and improvement
Interpersonal and communication skills

DISCLOSURE POLICY

Connecticut Dermatology and Dermatologic Surgery Society (CDDSS) in joint sponsorship with CSEP adheres to all ACCME Essential Areas, Standards, and Policies. It is CDDSS policy that those who have influenced the content of a CME activity (e.g. planners, faculty, authors, reviewers and others) disclose all relevant financial relationships with commercial entities so that CDDSS may identify and resolve any conflicts of interest prior to the activity. These disclosures will be provided in the activity materials along with disclosure of any commercial support received for the activity. Additionally, faculty members have been instructed to disclose any limitations of data and unlabeled or investigational uses of products during their presentations.

Physicians Survey Form

Dear Member,

In an effort to establish procedures for identifying and analyzing the continuing medical educational needs and interests of our members, we ask that you take a moment to fill out this form and objectively identify potential speakers and educational topics that you are interested in having at the Connecticut Dermatology & Dermatologic Surgery Society (CDDSS) Semi-Annual Educational Meetings.

CDDSS will try to accommodate requests in an expeditious manner and communicate the purpose or objectives for each CME activity to our membership. Furthermore, the CDDSS shall design and implement educational activities consistent in content and method with the stated objectives and with applicable CME standards. Upon completion of each educational activity CDDSS will evaluate the effectiveness of its CME activities in meeting identified educational needs and objectives.

If you have any questions or comments regarding CME activities, please contact Debbie Osborn at 860-459-4377, by mail: PO Box 1079, Litchfield, CT 06759 or by email at *debbieosborn36@yahoo.com*
